Plunge saw with 2 guide rails

Mafell MT55CC 240v Deep Saw with 2 X 1.6m Guide Rails + Connector + 2 X Clamps & rail bag **PACKAGE OFFER** COMES WITH: 2 x 1.6M RAIL GUIDE PLUS RAIL CONNECTOR PLUS 2 x RAIL CLAMPS PLUS GUIDE RAIL BAG ULTIMATE SAW PACKET! All MT 55 functions are aimed at accuracy, such as non-easy cutting, center lock, precise cutting depth adjustment, high speed, tracking pointer, adapted slot, undervaluation, position indicator, etc. Can be used with the most popular track systems - Festool, Makita (including game elimination tools), and, of course, MAFEL Immediate access to the blade: hence surprisingly fast and scratch-free teeth. System accessories - From a number of tools, to large special accessories for MT 55 and guide rail F. Saw blades, crumbling F-SS protective guard, F-HP non-slip profile, F-WA corner fence, F-VS connecting piece, F-AS stop (stop return), MT-PA position indicator, etc. suitable for boards and hard wood Scoring function - Precision, asymptomatic cuts, even if the rubber lip is worn. Tracking pointer - Maximum accuracy, even when cutting a free hand. Adapted slot - Can be adapted to other play track systems securely and accurately eliminated by index notches on guide jaws. Central locking - Angle adjustment is fixed in two places with a single screw. Faster, easier and more accurate thanks to the U-shaped guide rod. Position indicator - Useful marking of the point where the blade enters the working part; exclusive MAFELL function Practical and accurate control of saw blades when leaving and leaving the work surface. Universal cutting depth pointer - With or without a rail, you do not need to work out the dimensions of a quick turn of the ingenious pointer – no brain work is required. Precise adjustment of cutting depth - for extremely fine adjustment of cutting depth beyond the standard accuracy of 1 mm (for example, Fermacell), which takes accuracy and accuracy to new heights. Tilt setting from -1° to 48° - Overrides positions 0° and + 45° with automatic system reset, undermines without the risk of further errors caused by the forgotten reset. High torque - Comfortable power reserves, which means a waterless, convenient cutting, but a hard transition. Speed without load 6300 rpm - with a high cutting speed, producing precise and clean cuts. Orxygla dust protection and closed lid - Extremely clean cutting with minimal dust (for example, gypsum wall boards), no special accessories are required. The clear appearance of the pointer through the slide with orxigli facilitates the free incisions of the hands. Max Case with Accessory Tray - Room for every last small item inside a cleverly designed case, even the F-WA corner fence has a proper home. Motor and gear noise - Extremely quiet at idle and under load you can say goodbye to vibration and loud Digital electronics - Wear: there are no rotating parts, so there are no unnecessary repair costs. Mechanical motor brake - Ideal, as it keeps wear and tear to an absolute minimum, the electronic solution is subject to much greater wear and tear. Hose Hose Velcro for power cable - The hose and cable leave the machine in the same direction and do not interfere with the operation. Effective cable guide without expensive special accessories. Indentation on the hose connector - Eliminates accidental twisting, the hose locator remains in a predetermined position. Slot Width Marker – Clear visibility, falsic makes for simple contact. Handle at 62° - Ergonomic positioning of the handle. Comfortable and voltageless clutch without placing the wrist at an uncomfortable angle. Dipping-cutting without a rivets of a knife - The saw blade pulls into the guard side by side without time. A more flexible saw changes without having to pay attention to the blade of the knife. 3-year extended warranty Specifications: Depth of cut 0 - 57 mm Depth of cut by 45° 0 - 40.5 mm Tilt range -1 encore +48° Rated speed without load 3600 - 6250 1/min Normal load speed 3400 1/min / Universal engine 230 V/ min 50Hz Rated input 1400 Weight W 4.7kg Comes with: Mafell T-Max Case TCT sawblade 162 x 1.2/1.8 x 20mm (6 3/8in), AT, 48 teeth 1 Allen Key 5mm Cable 4m Page 2 On D&M Tools we stock a wide range of high quality branded cord power tools suitable for DIY, professional and industrial use.
